

THE MILL CARAVAN SITE

RULES OF CARAVANNING AT THE MILL

1. Sub-letting of any caravan will be restricted to 4 weeks in any one full year. Sub-letting for more than 4 weeks is breaking the contract with us and we would appreciate you monitoring this carefully.
2. Any caravan must be removed from site in advance of sale or change of ownership. If the caravan is reasonably new and you would like it to be sold on site it would be necessary to discuss this with us before entering into any negotiations so that you are aware of site charges for change of ownership. This would otherwise be classed as a break in contract and the caravan moved off site at your expense.
3. For safety reasons – all dogs must be kept on leads when there are young children staying on the site. PLEASE NOTE all mess must be cleared up by yourselves and your visitors to the site.
4. Noise must be kept to a **minimum after 12** midnight so that others may enjoy a peaceful holiday. No Barbeques or parties after this time as consideration must be to those who have been at the Mill for many years and enjoy the peace.
5. All sheds must be coated with a fireproof coating (to keep to fire regulations – these are monitored from time to time).
6. Areas immediately around and under the caravan's must be kept clean and tidy by yourselves.
7. The re-cycle bins must be used for all suitable waste material e.g. plastic/glass/metal. White bin bags **MUST** be used for non-recyclable rubbish.

Many thanks for caravanning with us.
